## Career Objective

Result-oriented MERN Stack Developer with hands on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive user interfaces, RESTful APIs, authentication systems, and database-driven applications. Passionate about creating scalable and user-centric web solutions while continuously learning modern technologies..

## Technical Skills

**Programming Languages:** JavaScript, Python, Java, C++

**Frontend Development:** React.js, HTML5, CSS3, Bootstrap, Responsive Web Design, React Router

**Backend Development:** Node.js, Express.js, REST API Development

**Database:** MongoDB, SQL

**Authentication & Security:** JWT Authentication, bcrypt

**JavaScript Concepts:** DOM Manipulation, Event Handling, ES6+, Form Validation, Asynchronous Programming

**API Integration:** REST APIs, Fetch API, Axios, JSON

**Tools:** Git, GitHub, VS Code, Postman, Cursor

**Core Concepts:** CRUD Operations, State Management, Authentication, Database Management, Responsive Design

## Internship

**MERN Stack Development Intern**, Webroid Business Solutions

Jul 2025

- Developed responsive web application interfaces using React.js and integrated REST APIs to deliver dynamic user experiences.
- Built reusable UI components and implemented CRUD functionality across multiple application modules.
- Collaborated with team members using Git and GitHub for version control and project management.
- Improved application usability through responsive design principles and component-based architecture.

## Projects

**Digital Notice Board System**

GitHub

- Built a centralized platform for sharing academic and event announcements with role-based access.
- Tools Used: MongoDB, Express.js, React.js, Node.js, Bootstrap

**Cashew E-Commerce Website**

GitHub

- Developed a responsive e-commerce website with product listing, filtering, and shopping features.
- Tools Used: React.js, JavaScript, HTML, CSS, Bootstrap

**College Lost & Found Portal**

GitHub

- Developed a MERN-based portal for students to post and search lost or found items in college.
- Tools Used: MongoDB, Express.js, React.js, Node.js, Bootstrap

## Education

**Thanthai Periyar Government Institute of Technology**, B.E. Computer Science and Engineering

2022 – 2026

- Percentage: 84%

**Shree A. Subbaraya Chettiar's Girls Higher Secondary School**, HSC

2022

- Percentage: 89.33%

**Shree A. Subbaraya Chettiar's Girls Higher Secondary School**, SSLC

2020

- Percentage: 91.6%
